DOCdata supplies passport and ID-card personalisation-systems to AB Svenska Pass for the personalisation of Swedish ID-documents

Industrial Automation Integrators (IAI) B.V. in Veldhoven, a subsidiary of DOCdata N.V. in Waalwijk, will supply BookMaster 210 and CardMaster 210 systems for the personalisation of Swedish passports and ID-cards.

The decision of the Swedish authorities to apply the security feature ImagePerf/TLI[®] to their ID-documents led to the purchase of the above systems. The ImagePerf/TLI[®] feature is patented by IAI and IAI supplies the systems for the application of this feature in passport booklets and ID-cards.

This decision once again confirms that the ImagePerf[®] and ImagePerf/TLI[®] security features are highly appreciated by the authorities for enhancing the security of their ID-documents. These features are already applied in Belgian, Dutch, Estonian, Irish and Swiss passports.

- Industrial Automation Integrators (IAI) B.V. is a subsidiary of DOCdata N.V. specialised in the application of laser and optical technology. At present its main customers can be found in industrial activities such as security printing, packing material processing and motion picture subtitling.
- DOCdata N.V. is a leading and independent supplier of audio and multimedia CD's and DVD's and related services with subsidiaries in the Netherlands, France, Germany and the United Kingdom. DOCdata also supplies production equipment based on laser and optical technology.

Waalwijk, The Netherlands, 18 March 2005 – DOCdata N.V. (Euronext Amsterdam: DOCD)
