Industrial Automation Integrators (IAI) B.V. will deliver systems to SDU Identification B.V. for the application of ImagePerf/TLI[®] in the new Dutch drivers license.

The new Dutch drivers license that will be introduced per 1 October 2006, will have a credit card format. Personal data will be engraved in the plastic card. As an extra security feature, a photograph of the cardholder will also be applied with ImagePerf/TLI[®].

ImagePerf/TLI[®] is a highly appreciated security feature that is already being used to secure among others passports and ID-documents in the Netherlands, Belgium, Estonia, Ireland, Sweden and Switzerland. This patented security feature has been developed through intensive cooperation between passport developer and producer SDU Identification B.V. in Haarlem and Industrial Automation Integrators (IAI) B.V. in Veldhoven, a fully owned subsidiary of DOCdata N.V. in Waalwijk.

With the delivery of systems for the application of ImagePerf/TLI[®] in the new Dutch drivers license, IAI will realise a turnover of €1.2 million. The delivery of these systems is planned for 2006.

- Industrial Automation Integrators (IAI) B.V. designs, supplies and maintains production systems utilising optical and laser technologies in niche markets such as security documents (among others passports and bank notes), packaging materials and motion picture subtitling.
- SDU Identification B.V. is a producer of among others passports (the Netherlands, Ireland and Switzerland), driver licenses, smart cards ('chipknip') and secured application and distribution systems for identity documents. In the Netherlands SDU Identification is the leading company in the market for highly secured cards. Clients are among others governmental organisations, banks and health insurance companies.
- DOCdata N.V. is a leading and independent supplier of audio and multimedia CD's and DVD's and related services with subsidiaries in the Netherlands, France, Germany and the United Kingdom. DOCdata also supplies production equipment based on laser and optical technology.

Waalwijk, The Netherlands, 23 September 2005 – DOCdata N.V. (Euronext Amsterdam: DOCD)
